Sessions and Carver Seminars

We believe you will agree that this is the best sales and use tax seminar in North Carolina because:

1. **You get more than just a seminar.** We offer “service after the seminar” and ask that you call us with any questions you may have after the seminar. We offer this service so you can get the answers you need. We help you identify the areas that need improvement; therefore, many times when people get back to their office they have questions or need clarification. Some participants are just uncomfortable asking questions in front of a room full of strangers and prefer to ask their questions through the anonymity of a phone call. Either way we want you to feel comfortable about the information we provide to you.
2. **We know what the auditors know.** Since our curriculum is planned and presented by former auditors, we have the knowledge and experience to give you the answers you need. We can also give you the insider tips that will make your job, and even your next audit, go much more smoothly.
3. **NC sales and use tax is our specialty.** Since we specialize in North Carolina sales and use tax we can give you specific answers for your situations. We **do not** present a “one size fits all” seminar that travels throughout several states giving general information that is not meaningful to you.
4. **We can give you answers you can trust.** With our level of experience in auditing and helping people untangle the complex tax laws you will be confident with the information we provide you.
